Overview

Minimum example

This minimum example contains all standard elements of a technical writing to illustrate the formatting styles provided by the [quarto-tech-memo extension](#). Let's start with some math: $e^{\pi i} + 1 = 0$ is an inline equation, In memo style, margin notes are supported, including small **inline** image.  They shouldn't be used in 2-column paper style. Eq. Equation 1 is a numbered equation. Here is a physical quantity with unit: 1 μT (1 microtesla), note the thin non-breaking space. In IEEE legacy PDF, one need to use the math mode or the SI unit package to render the greek letters.

$$\nabla \times \mathbf{B} = \mu_0 \mathbf{J} + \mu_0 \varepsilon_0 \frac{\partial \mathbf{E}}{\partial t} \quad (1)$$

Figures and tables

Citations are included in IEEE style such as G. Close [1]. Figure 1 shows a numbered figure. Table 1 is a numbered table.

Figure 1: Figure caption.

Table 1: Example of engineering table

Parameter	Symbol	Typ	Unit
Hall sensitivity	S_H	0.2	V/T
Effective nr. of bits	ENOB	12	-

Figures and tables

{{< colbreak >}}

Code snippet and callouts

Syntax highlighting is supported in code snippet too. Moreover, callout boxes are available for tips, notes, warnings, and important remarks, with appropriate icons or colors.

```
def f(x, square=True):  
    # Python code snippet  
    return (x**2) if square else x
```

i Markdown syntax

The manuscript is written in [Markdown](#), a plain-text **easy syntax**.

Dummy text

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec semper leo nec quam aliquam consectetur. Donec sollicitudin elit nec nunc congue, quis malesuada nulla cursus. Mauris vulputate vehicula velit, et malesuada nunc luctus quis. Nullam efficitur leo sit amet odio iaculis consequat. Nam ultrices, orci fermentum gravida aliquet, eros eros accumsan neque, quis tincidunt lectus tortor a enim. Phasellus eu tellus et ipsum blandit pulvinar. Mauris in lorem vitae libero viverra tristique a non velit.
